Anita Goodesign™

At Anita Goodesign we have one simple mission: To bring fun and creativity back to embroidery. Our collections are very distinctive and unique compared to other design collections in the market. All of our collections are project based, meaning if we can't think of a project to create with the designs we simply will not produce the collection. All of our CD-ROM's contain a wealth of information consisting of designs in multiple formats, project tutorials, technique tutorials and a free re-sizing program. All of the designs in every collection also coordinate which is extremely important. Each collection is drawn by one artist and digitized by one digitizer. This means all of the designs will have the same quality and consistency. Every design is hand digitized by Steve Wilson, who has personally digitized over 100,000 designs and has over 15 years experience in the embroidery industry.

Steve Wilson, is the president and owner of Anita Goodesign, Artbox Digitizing Studio, and the co-owner of Art-Sew-Perfect stock design company. Steve has won over 20 digitizing awards, written over 70 articles on digitizing and embroidery techniques and has produced 18 digitizing "How-To" videos. He has also digitized thousands of designs for the home textile and decorating industries and is bringing that experience and expertise to the Anita Goodesign Home Decor Collections.

Each of the Anita Goodesign Collections are inspired by current industry trends and can compliment any room in your home. All of the designs in each design collection coordinate and compliment each other and the designs are sized from 3 " x 3" to as large as 8" x 12". Each collection uses as few thread colors as possible and is digitized for use with home and commercial embroidery machines.

166AGHD

32 Designs total- Blocks Come in 6.5"x10.5", 5.5"x9.2", 4.5"x7.5", and 4.2"x6.7"

It is a tradition at Anita Goodesign to create a new tile scene every Christmas. This year is no exception and our newest tile scene is Letters to Santa. This is an 8 block tile scene that features a festive mailbox filled with letters. The mailbox is set against a beautiful picket fence background covered in holly with 2 regal cardinals perched on it. This is the perfect Christmas wall hanging for any household. Since the collection only has 8 blocks it is a very easy scene to assemble. Each block has applique in it to keep stitches to a minimum.

Thanksgiving Greetings Tile Scene in 4 sizes

32 Designs total. Blocks Come in 8.5" x 10.5", 8.5" x 9.2", 4.8" x 7.0", and 4.2" x 6.2".

This is an 8 block tile scene that features a turkey, soup, wine, cake and a bowl of fruit. Each of the design elements is hand shaded for a painted effect. This is the perfect Thanksgiving wall hanging for any household. Since the collection only has 8 blocks it is a very easy scene to assemble. Each block uses applique to keep stitches to a minimum. We also use our fabric saving technique with this design. None of the fabric you see in the finished project is hooped. Instead we hoop muslin and use all of the visible fabric as applique. You will use half of the normal fabric to complete this project.

Mix & Match Quilting

by Anita Goodesign

Examples of collection combinations.

Foundations + Song Birds + Fantasy Birds Foundations + Roosters

Foundations + Baby Lullaby

This is a collection that has been requested since the inception of the Mix and Match Quilting line. The Mix and Match Quilts are so easy to make that everyone always asks "What about my other quilts and designs, how do I apply these techniques to them?" The answer is quite simple, the Foundations Collection!

What we have done is created a collection that consists of quilt blocks that easily merges with your existing designs and allows you to create beautiful quilts in your machine without using any software. You simply open the desired background block, merge your existing embroidery design and stitch the block! You will end up with a perfectly centered quilt block complete with your choice of many backgrounds and borders. This collection doesn't just come with square blocks. There are 3 different sizes of squares, 2 different rectangles, 2 different mitered corners and 2 different triangles. With these combinations you can create hundreds of different quilts!

The Rose

Blocks come in 4 sizes: 4.8", 5.8", 6.8" and 7.8"

The Rose

For our tenth Special Edition we've decided to create something entirely different. Instead of modular blocks that you can rearrange we decided to create one large artistic piece titled "The Rose". Total of 45 blocks and measures 40" x 72" at its largest size. The rose was painted using wide and varied brush strokes for a stylized, artistic look. The style of painting is very similar to the background of our Geisha quilt and Crane tapestry. The beautiful rose was then set upon a folded fabric background. The folded fabric creates the perfect background while maintaining a low stitch count.

This Special Edition is among the lowest stitch counts and fastest to recreate. The entire project uses only 3 fabrics for the background, 3 for the rose and 2 for the leaves. There are also only 7 thread colors so rounding up supplies will not be difficult.

PROJECTS

What Are Projects?

These are not “In the Hoop Projects” which limits the size and creativity; they are embroidery designs with a specific finished project in mind. Projects will include a step-by-step tutorial with detailed pictures showing you how to embroider and sew the project from start to finish. We also include tips and tricks along the way to take the guesswork out of any new technique. And we include a detailed “Shopping List” for each project. The other great aspect of this new collection is that you will be able to take “Project” classes at your local Anita Goodesign dealer! These Projects will incorporate embroidery and sewing while teaching you new and interesting techniques. We want to inspire you to take your embroidery to the next level while enjoying what your entire machine has to offer. The embroidery designs are exclusive to the “Project” Series. As always, each CD has multiple designs each in different sizes to accommodate different hoop sizes. Use these designs with the specific project or add them to anything you like!
