### Catalog

The Anita Goodesign catalog includes photos of all of our collections along with photographs of hundreds of projects. We hope all of the projects will inspire you.

### Color guide

Be sure to read our new guide to choosing colors. This is a 29 page document that details how we choose thread colors and it also includes tutorials on how to change colors in your software! The color guide is located in the tutorial folder.

### Re-sizing program

If you ever had trouble re-sizing designs you won't any more. We include a free re-sizing program that will allow you to adjust the size of our designs. The folder contains the program itself as well as the tutorial. We suggest reading the tutorial before installing the program.

### Designs

All of the designs from the collection are in this folder. Once you open the designs folder you will see folders for all of the different machine types.

### Tutorials

The tutorials folder is jam packed with information. Each collection has a specific tutorial that demonstrates all of the techniques and projects that go with it. There is, of course, a list of all the thread colors we used in the design. Our tutorials are unique in the fact that they consist of mostly photographs to guide you through the project step-by-step. On some collections we also give you additional information such as scans of the fabric we used, quilt patterns, home decor patterns and much more! There is also our brand new color guide that will explain exactly how we choose colors for our designs and projects. This is a must read. While in the folder be sure to explore the original home decor tutorial which will show you how to create perfect towels, applique and more.

# Anita Goodesign Tutorials

At Anita Goodesign our goal is to inspire you with every single collection that we produce. Everything we do includes instructions to create a beautiful project. But what good would those instructions be if they were not easy to understand? We pride ourselves on our tutorials. Each tutorial has step by step instructions with photographs that illustrate how to embroider each technique and project. On many of the collections we also include scans of the fabrics we've used as well as patterns for the project. If you haven't fully explored one of our CD-ROM's you should do so now. All of our tutorials are located in the tutorials folder on your CD.

# Baby Bugs

27 Designs

“Baby Bugs” is another wonderful collection in the Anita Goodesign Baby Line. We applied our usual technique of having all of the designs go together when creating the baby designs with some twists that are exclusive to this line. For one, most of the designs are created for applique. We believe this is essential for the baby line. You can combine both your love for fabric and embroidery together !

# Baby Vintage

32 Designs

Mini Collection

This collection is full of soft and beautiful baby designs. There are storks, booties, rattles, a rocking horse, a baby buggy and a host of others. All of the flowers in the collection were hand digitized to simulate hand stitching and most of the running stitches are very long and use seven ply stitches to simulate thicker hand embroidery thread. Create a lap quilt using three of the jumbo designs. We used cotton thread for a vintage look as well and we only used 8 colors in the whole collection. We can assure you that no matter what project you use these vintage designs for everyone will love them!

Asian Fusion is another exciting collection in our Fashion Line. This collection is full of Asian influenced designs with dragons, lotus flowers, lanterns, elegant birds, appliqué fans and butterflies. We created a beautiful velour jacket, shirt and even embellished shoes and a hat with these intricate designs. Just think of the possibilities using metallic threads and Asian theme fabrics for applique. We hope you enjoy this collection as much as we have in creating these projects. You may even go as far as using chopsticks after you embroider your first project!

## Full Collection/ 39 Designs

More “backyard bird watching” has inspired another great collection named “blue-jays”! There are 39 designs in this collection and you will not believe how “life like” these birds really look when embroidered! There are many different bird designs to choose from and beautiful groupings of flowers, birdcages and even a birdbath to complete that perfect design on a pillow or even a shirt. The collection also includes running stitch designs in the floral motif. These birds are sassy and display their colors and markings just like the ones in your very own backyard! As you can see from our samples...once again these embroidery designs can be applied to fashion clothing or any home décor! We hope you enjoy this collection as much as we have enjoyed designing it!

**1** We used templates to create the large back embroidery out of 4 separate designs.

**2** The sweatshirt was lined with minky fabric for a luxurious look.

**3** We placed embroidery on the back of the hood that is visible with either the hood up or down.

**4** There are plenty of light stitch designs in this collection that look great on lightweight garments like t-shirts.

### Hummingbirds Collection/ 46 Designs

Their relatively small size, brilliant colors and fearless personalities, and remarkable mode of flight have won hummingbirds nearly universal admiration from humans. This collection has captured these tiny birds in great detail as they buzz around and sip nectar from bright orange trumpet flowers. This is your chance to get an up close glimpse of these tiny creatures as you embroider them on a pillow or even a shirt as you can see from our samples that we created from this collection. We hope you enjoy this collection and we wish you many more enjoyable hours of bird watching!

This collection started out as stackable designs for jeans but once we started working on them they turned into so much more. Nature's Jewels has four different themes, hummingbirds, dragonflies, fish and peacocks. Instead of just creating the art the old fashioned way, we injected a little fashion into the designs. All of the creatures are created using paisley designs. Each theme has at least 12 different designs and arrangements; all of the designs go together. As you can see on our different samples, they look good both on pants and on tops. With Nature's Jewels you will be able to create the perfect spring or summer outfit!

This elegant collection consists of intricate designs of birds and leaves. If you're a bird novice, you will definitely be happy with this collection. The designs show the beauty of birds in flight with their wings spread and their long, beautiful, tail feathers as they perch upon a limb. The leaves have an open stitch design that gives them a light and airy feel, which makes these designs perfect for any garment. You can also go with a more trendy approach and use leather as your applique as we did on the long sleeve knit shirt shown here. Knit and novelty fabrics work just as well for this applique technique. We used a technique called "reverse applique" on the blue and purple knit shirt. So, there are many options with the Nouveau Birds and Leaves collection. All these techniques are included in the Fashion workbook PDF file.

POSHabilities is a great collection of 71 designs that are perfect for any garment. "Posh" is defined in the dictionary as elegant, fashionable, and expensive. As you can see in our examples, we have embroidered different types of shirt fronts, and down the side of several pair of jeans. We even embellished the back pockets of one pair of jeans with pieces of leather. The possibilities are endless! This collection has three design sets. The designs were created so they could be linked together to form larger arrangements for jeans and shirts but the designs were also created to look great individually. So, if you're feeling a little "POSH" then purchase the "POSHabilities" collection today!

"Sugar and Spice and Everything Nice" sums up the description of this collection perfectly! Is that not what you think of every time you look at that precious little girl in your life? RIGHT? This collection consists of sweet designs of butterflies, crowns and crests for the princess, cupcakes, flowers and singing birds. We have even included some edgier designs for that little "rock-n-roller" with flaming guitars, hearts with wings and a rose embellished banner with the theme "Born to Rock." We think this collection has a great variety of designs and includes a nice selection of little sayings such as "sweet pea, sweetie, girls rule, and even baby diva! For all you “backyard bird watchers” we have created a beautiful collection named “Swallows”. There is a combination of detailed designs of birds in perched poses with sprays of flowers and vegetation to enhanced your projects’ creative layouts. The digitizing is superb with shadows and highlights to make these tiny birds come to life. Just check out these samples! We have embroidered linen and denim shirts with flowers and an intricate birdcage design in addition to a grouping of flowers with a swallow draped down the front of the shirts. Then we embroidered a simple, long sleeve t-shirt and couldn’t believe the impact this design made to such a simple shirt.

We have also created a gorgeous pillow with these designs because this collection is perfect for fashion clothing and... home decor. Just think of all the possibilities! So, get out your binoculars, relax, and do a little bird watching and then a little embroidering today!

### Full Collection/ 51 Designs

Once in a while we design a collection and have no idea what to call it. Usually those collections don't readily fall into a category like flowers or animals and Urban Boho is one of those collections. While we were researching fashion trends we noticed that a lot of different stitch types were being used on current garments. Those stitch types are mainly machine stitches made to look like they were done by hand. We used a lot of these techniques on this collection. The results are stunning, vintage and modern mixed together. The designs are roses, crests, flowers and banners with a few twists mixed in. There is everything from large arrangements to appliqué designs. There are also lots of design ideas and inspiration mixed in. This collection is perfect for any age!

There are also plenty of design elements to supplement the roses and we've also included a few rose buds to help decorate your projects. The most exciting part of the collection is the huge rose laurel project we created. The design when finished is 27" by 27" and consists of 15 hoopings in the 5" x 7" hoop. # Lighthouses

## 46 Designs

There is nothing more beautiful than a lighthouse perched on sand dune with seagulls and sunshine all around. That's the element we tried to capture with the Lighthouses collection. Although it's not just lighthouses, there are also some beach landscapes, sailboats, shells, seagulls and other nautical elements. We realized that lighthouses vary in style from region to region and we think we've chosen the most beautiful ones from around the country for you to embroider.

# Sparkly Snowmen

40 Designs

Full Collection

You are probably wondering, why did we call this collection Sparkly Snowmen? Well the snowmen were designed with the Madeira Metallic thread in mind. We used a lot of different types of metallic thread in this collection, from standard metallic to jewel tones & variegated ones as well. The results? Sparkly Snowmen! As usual we give you the thread color numbers that we used to create our collections. You will find them in the printable .pdf files.

Full Collection

Sleigh Ride is the follow-up collection to Floral Tile Scene. Both collections were created in the same fashion, using twelve separate embroidery designs to create one large scene. "Floral Tile" was such a huge hit that it was only natural for us to come out with another "scene" collection. Now we offer the scene in a third size for those of you with 6"x10" hoops. Sleigh Ride is not a "Christmas" collection per say, there are no Santa's or elves, it's just a beautiful winter scene for all to enjoy.

*12 in the Hoop Projects*

What's everyone's favorite gift to receive? Give me the money...the cash, but no one really gives real money anymore, instead they give gift cards. Now, take it a step beyond the unoriginal ugly duckling paper holders that take away from the wonderful experience of receiving money. Create these embroidered gift card holders made completely in the hoop and with absolutely no sewing required. Give that special someone a gift they won't forget and remember that you can even stitch a special message on the inside.

## 5 in the Hoop Projects

Ever use a purse before? How about a small bag just to carry around the bare essentials? Can you ever have too many bags and purses? We thought so! Well here is a couple more we thought you would like. Try our daisy bags for a quick and fun project or go bigger and stitch out the denim purse. Both projects are completed in the hoop and require no sewing at all.

Just hoop, stitch and trim your next project that will make the other girls jealous. If you like you can also create an accessory bag, key fob or even a note pad holder because you can never have too many of those either.

# Fritillaria 1

12 Block tile  
scene in 2 sizes

## Mini Collection

This collection will absolutely amaze you with all the detail created in the digitizing! If you have a flower fetish and love fine art... this is the collection for you! The design was created from an original painting of a Fritillaria flower named "Crown Imperial". The color scheme is beautiful and you will create a large wall hanging in 12 hoops! The design comes in 2 sizes and a complete photo tutorial. As you can see from our sample, it will look just like a fine art painting when completed.

The Crown imperial or Kaiser's Crown (*Fritillaria imperialis*) is a member of the genus *Fritillaria*, family Liliaceae. It is native to a wide stretch from Anatolia across the plateau of Iran to Afghanistan, Pakistan and the Himalayan foothills. It is one of the earliest plants to be cultivated. It grows to about 1 meter (3 feet) in height, and bears lance shaped, glossy leaves, at intervals along the stem. It bears a prominent whorl of downward facing flowers at the top of the stem., topped by a 'crown' of small leaves, hence the name. While the wild form is usually orange-red, various colours are found in cultivation, ranging from nearly a true scarlet through oranges to yellow.

# Northwoods

32 Designs

## Mini Collection

In the forests and streams of northwest America there are some of the most beautiful landscapes and wild-life this country has to offer. We tried to capture some of that magic with the "Northwoods" collection. You will see things like a majestic eagle, a wolf howling at the moon, a moose wading in the river and of course the king of all forests, the grizzly. This mini collection offers many designs, (32 in all), including a handful of appliqués.

# Teddy Bears

34 Designs

Mini Collection

Our thought when we created this collection was to make realistic Teddy Bears, which sounds like an oxymoron but we did it anyway. We wanted a really plush appliqué to make them as 3-D as possible and minky appliqué was the perfect solution. Nothing has the feel of minky, it's soft but furry and it compliments the designs marvelously. Cuddle up with your Teddy Bears!

*Vintage*

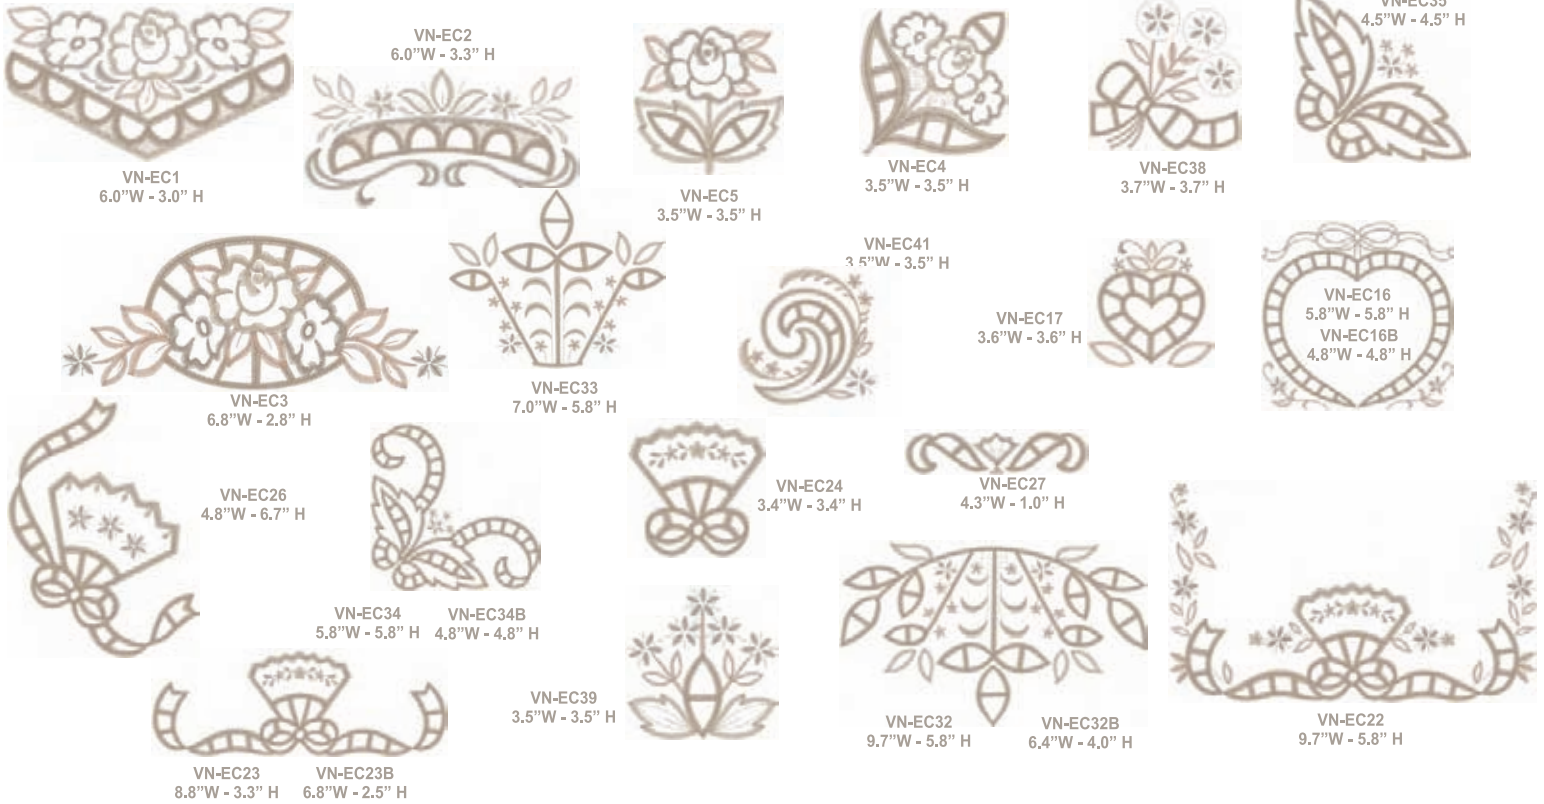

The Estate Collection has a combination of three different types of designs. The first is cutwork; what vintage collection would be complete without them? The second is running stitch designs. To me nothing looks more elegant than tone on tone running stitch work. The third type is, light stitched designs. When you use all three of these designs together you will have stunning results.

The Vintage Borders collection has a total of 40 designs. There are 20 standard stitch and 20 running stitch designs. These designs are just what you need to embellish all your linen's. When your next overnight guest comes to visit, can you imagine the surprise and then envy when they turn down the bed sheets and see your beautifully embroidered bed linens! The designs in this collection remind me of some of my grandmothers hand embroidered pillow cases that I still treasure today. This would be a perfect project to create beautiful pillow cases and napkins as unique gifts.
